

# COMMUNITY TRAININGS

**EPIC's** unique trainings provide an opportunity for individuals to explore topics such as **disabilities, ableism, and inclusion.**

These training sessions are designed for both people who currently provide services to people with disabilities, or who are looking to be more inclusive of people with disabilities. EPIC's inclusive team of trainers is comprised of youth and adults who offer trainings to **schools, companies, organizations, youth groups, and community programs** throughout New England.

## What are people saying about our Community Trainings?

*"This training has helped our organization to develop more supportive and understanding programming for our students and has allowed us to foster their innate abilities to become their own advocates."*

Teacher, LABBB Educational Collaborative

*"EPIC helped us to learn more about how to recognize our own privileges as well as understand challenges for those with disabilities in an ableist culture."*

Participant from Lasell College

*"This training has continued to helped our organization rethink all of our practices to plan for greater levels of inclusion and equity"*

-Participant from City Year NH.

100% of participants would recommend our trainings to an outside partner
