

CONSULTING

EPIC's consulting services provide companies and organizations the opportunity to explore and address topics such as **ableism**, **inclusion**, and **accessibility** in the workplace.

We provide an initial assessment with your leadership team to understand the specific needs of your organization, to then build a unique package of training sessions and develop policies and procedures to help you reach your inclusion goals. We then provide a training session with employees on the action plan to ensure change is implemented.

We work with you to:

- make inclusive marketing plans
- build reasonable accommodation policies
- create procedures for accessible events and meetings
- form strategies to successfully recruit, hire, and retain employees with disabilities

"We are so grateful for EPIC and their partnership with City Year Boston. With their help, we have been able to dig deeper into the topics of disability and ableism and have developed a process for offering accommodations. We appreciate EPIC for helping us to find ways to make a more inclusive workplace." - City Year Boston
