

YOUTH TRAININGS

EPIC's interactive trainings are designed to support teens and young adults with disabilities as they learn more about the topics of **leadership, disabilities, self-advocacy, ableism, and goal setting.**

EPIC's inclusive team of trainers is comprised of youth and adults who offer trainings to schools, nonprofits, youth groups, and community programs throughout New England.

"I learned about who I am and about other disabilities."
-Service Warrior youth

"As young leaders, we are one step closer to changing the world; we just need to use what EPIC has taught us. The worst thing we can do is become silent."
-Student, Boston Public School
